

PROBLEM:

The presence of crops that are grown only at specific times of the year and are imported at other times, which greatly increases import costs.

SOLUTION:

Hydroponic system that helps planting different types of plants at any time of the year, which help at decreasing importing costs and increasing exporting costs

ADD VALUE:

- 📦 Introducing innovative, highly efficient and automated hydroponic farms.
- 📦 Product Marketing.
- 📦 Management, operation and maintenance contracts.
- 📦 decreasing importing costs and increasing exporting costs

TARGET AUDIENCE:

- 📦 Farmers
- 📦 People interested in agricultural field
- 📦 Investing companies at agriculture field
